

innovative. streamlined. economical.

The PolyScience MX Immersion Circulator converts any tank or vessel into a reliable, user-friendly circulating bath. Remarkably versatile and convenient, it delivers precise and reliable temperature control for virtually any laboratory application. See for yourself at www.PolyScience.com

○ Large Digital Display

Backlit display allows you to monitor set point and actual temperature from across the lab

○ Adjustable Mounting Clamp

Fastens securely to both flat and rounded tank walls

○ Integral Pump/Heating Coil Protection

Protective housing shields pump and heater, yet offers easy access for cleaning

○ Compact, Maintenance-Free Design

Streamlined design maximizes available reservoir space

○ Easy Flow Management

Convenient slide control easily adjusts to adapt to any need
