

General Purpose Water Bath, 5 Liter

WBE05A1

Key Specifications

Working Temperature:	Ambient +5° to 99°C
Temperature Stability:	±0.1°C
Power Requirements:	120V, 60 Hz or 220-240V, 50/60 Hz
Reservoir Capacity (gallons/liters):	1.32(5)
Working Access (L x W x H):	5 x 10.8 x 6" (12.7 x 27.4 x 15.2 cm)
Overall dimensions (L x W x H):	14.5 x 12 x 10.5" (36.8 x 30.5 x 26.7 cm)
Heater Wattage:	360 W

Large, easy to read display provides an enhanced user experience and the ability to monitor temperature at a distance

Key Features

- Calibration offset feature
- Color TFT (thin-film transistor LCD) Display with adjustable brightness
- Five (5) Preset Programs allow the user to set a temperature and duration
- Integrated independent timer
- Clear, hinged high-gable cover
- Redundant safety thermostat
- Recessed handles
