Subject: RoHS Certificate of Compliance Statement from PolyScience

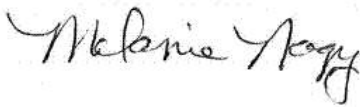

PolyScience certifies that the products manufactured at our Niles, IL facility are in full compliance with the requirements called out in the European Union's Restriction on Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS 2) Directive, 2011/65/EU and Directive 2015/863 (RoHS3).

PolyScience defines "RoHS Compliant" to mean that banned substances are not added during the manufacturing process and finished products have upper concentrations within RoHS defined acceptable limits.

PolyScience will continue to comply with and support any updates to the European Union's Restriction on Use of Hazardous Substances in Electrical and Electronic Equipment Directive, 2011/65/EU and Directive 2015/863.

The four phthalate substances (DEHP, BBP, DIBP and DBP) become restricted as of 7/22/2019 for all electronic and electrical equipment except the restriction applies from 7/22/2021 for monitoring and control instruments, including industrial monitoring and control instruments.
