GHS Hazards

- H320 Causes eye irritation
- H371 May cause damage to organs
- H373 May cause damage to organs through prolonged or repeated exposure

GHS Precautions

- P260 Do not breathe dust/fume/gas/mist/vapors/spray
- P264 Wash face, hands, and any exposed skin thoroughly after handling
- P270 Do not eat, drink or smoke when using this product
- P314 Get Medical advice/attention if you feel unwell
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
- P309+P311 IF exposed or you feel unwell: Call a POISON CENTER or doctor/physician
- P337+P313 If eye irritation persists get medical advice/attention
- P405 Store locked up

Section 4: First-aid Measures

Inhalation
Rescuers should put on appropriate protective gear. Remove from area of exposure. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Keep victim warm. Get immediate medical attention. To prevent aspiration, keep head below knees.

Eye Contact
Immediately flush eyes with water. Flush eyes with water for a minimum of 15 minutes, occasionally lifting and lowering upper lids. Get medical attention promptly.

Skin Contact
Remove contaminated clothing. Wash skin with soap and water. Get medical attention. Wash clothing separately and clean shoes before reuse.

Ingestion
If swallowed, do NOT induce vomiting. Give victim a glass of water. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

Section 5: Fire-fighting Measures

Flash Point: 111 C (232 F)

Extinguishing Media
Carbon Dioxide, Dry Chemical, Foam

Specific Hazards Arising from the Chemical
Empty containers retain product residue (liquid and/or vapor) and can be dangerous.
DO NOT pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. Also, do not reuse container without commercial cleaning or reconditioning. Closed container may explode under extreme heat.

Special Protective Equipment and Precautions for Firefighters
Special Information: As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOSH approved or equivalent) and full protective gear.

Section 6: Accidental Release Measures

Spill and Leak Procedures
Wear appropriate personal protective equipment. (See Exposure Controls / Personal Protection Section.) Eliminate all ignition sources. Prevent additional discharge of material if able to do so safely. Do not touch or walk through spilled material. Avoid runoff into storm sewers and ditches which lead to waterways. Ventilate spill area. Stay upwind of spill. A vapor suppressing foam may be used to reduce vapors. Collect spilled materials for disposal. Use only non-combustible material for clean-up. Use clean, non-sparking tools to collect absorbed materials. Remove from surface by skimming or with suitable absorbents. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container.
Section 7: Handling and Storage

Handling Procedures
Use with adequate ventilation. Avoid breathing dusts, mists, and vapors. Do not get in eyes, on skin, or on clothing. Wear eye protection and protective clothing. Wash thoroughly after handling.

Storage Requirements
Keep away from heat, sparks, and flame. Store containers in a cool, well ventilated place. Keep container closed when not in use. Protect from direct sunlight.

ENGINEERING CONTROLS: Provide ventilation sufficient to maintain exposure below the recommended limits.

RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant the use of a respirator.

SKIN PROTECTION: Wear impervious protective gloves. Wear protective gear as needed - apron, suit, boots.

EYE PROTECTION: Wear safety glasses with side shields (or goggles) and a face shield.

OTHER PROTECTIVE EQUIPMENT: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

HYGENIC PRACTICES: Do not eat, drink, or smoke in areas where this material is used. Avoid breathing vapors. Remove contaminated clothing and wash before reuse. Wash thoroughly after handling. Wash hands before eating.

Section 10: Stability and Reactivity

Chemical Stability:
STABLE

Incompatible Materials
Prevent contact with strong oxidizing agents. Keep away from strong bases. Keep away from acids. Avoid contact with permanganates, peroxides, dichromates, reactive sodium compounds, sulfur compounds and nitrates.

SDS for: 1.H005415.1GBulk.std.1
Conditions to Avoid
Avoid impact, friction, heat, sparks, flame and source of ignition.

Hazardous Decomposition Products
Combustion carbon monoxide may be formed. During combustion carbon
dioxide may be formed.

Hazardous Polymerization

Hazardous polymerization will not occur.

Section 11: Toxicology Information

Target Organs
Eyes Central Nervous System Skin Respiratory System

CHRONIC HAZARDS: May cause target organ damage. Overexposure may cause kidney damage. A component of
this product is a potential hazard to the fetus. May cause liver disorder (e.g., edema, proteinuria) and damage.
Significant exposure to this chemical may adversely affect people with chronic disease of the respiratory system,
central nervous system, kidney, liver, skin, and/or eyes.

Section 12: Ecological Information

Section 13: Disposal Considerations
Dispose of in accordance with local, state and federal regulations.

Section 14: Transportation Information
Non-Regulated.

Section 15: Regulatory Information
TSCA Status: All chemical substances found in this product comply with the Toxic Substances Control Act inventory reporting requirements.

California Prop. 65 Information:

WARNING: This product can expose you to chemicals, including ethylene glycol, which is known to the State of California to cause birth defects, or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
